

## RECALL NOTIFICATION NOVACOMET AND CLESSE BRANDED LPG GAS REGULATOR

**CLESSE INDUSTRIES, manufacturer of LP gas regulator brand Novacomet and Clesse issues an immediate product recall on LPG regulator product families BP1803, BP1903VT, 1455 and 455.**

Used with propane and butane LPG cylinders, the recall involves all directly cylinder mounted, wall mounted single cylinder and two cylinder manual changeover versions manufactured between June 2010 and September 2015.

Using the identification process, if your regulators are part of the recall, used for outdoor applications and fall within the specified dates, please register your details using one of the methods indicated below. If you are unsure how to identify your product, please visit our website [www.clesse-safety-notice.com](http://www.clesse-safety-notice.com) or contact our Recall Help Line. Following successful registration and identification, Clesse Industries will process and supply replacement BP1803 regulators free of charge, as well as contribute to the cost of the product exchange that falls within this recall.

### LPG Distributors and Merchants:

Please ensure that any remaining stocks dated between June 2010 and September 2015 are documented for replacement using the registration website, as detailed below.

### Installed Gas Regulators:

Please identify any installed regulators using the pictures below and check whether the product is marked with Novacomet or Clesse BP1803, BP1903VT, 1455, 455 and lists a manufacturing date between June 2010 and September 2015.

Please contact the Recall Help Line below. We will then assist in scheduling a replacement program.
